Burntwood
Regional Health Authority

Precautionary measures being taken for flu season

The Burntwood Regional Health Authority is removing all magazines, toys, and books from all its waiting areas and exam rooms to reduce the spread of seasonal flu and Pandemic H1N1.

Flu viruses can easily spread through coughing, sneezing, contact with unwashed hands and can be transferred from one surface to another.

This means that viruses can exist on magazines, toys and books. If you would like to read or bring your own toy for your child to play with during your visit, please bring your own material, do not share these items with others and take your personal items with you when you leave.

For more information on the BRHA, please visit www.brha.mb.ca.
